Gilbert's standing in the local Congrega-tional Church of which he is a member. After considering the two books as a whole, none was found to still advance a whole, none was found to still advance a charge that the professor's teachings were heterodox. There still remained a feeling, however, that the seminary would be better without the author of the troublesome books, and action was accordingly taken along that line. Neither Mr. Carr, who brought the original accusation, nor Doctor Gilbert were present at the sessions of the directors.

Gilbert were present at the sessions of the directors.

The board meetings yesterday and to-day were conducted with great secrecy. It is said that a hot discussion began yesterday afternoon and lasted until far into the night, and that it was taken up in the forecon, the Reverend W. E. Barton leading a spirited defense of the accused teacher. Doctor Gilbert was popular with his pupils, and a number of them have threatened to leave the seminary and go to Oberlin as a result of the verdict.

The report gives the reasons for the pro-

result of the vertice.

The report gives the reasons for the promeor's dismissal thus:

"For the good of the seminary and of
loctor Gilbert." Doctor Gilbert."

It concludes with the highest commendations of the minister as a man and Christian, and remarks: "His conscientious loyality to the truth as it has been given him to see the truth." In a letter from Doctor Gilbert to the directors, he pleads that today's view of the Bible's teachings is not necessarily wrong, because it is contrary to the views of fifty years ago.

The members of the Jefferson Club will hold a "social session" Saturday evening next at the clubhouse. Workmen are now engaged in installing a magnificent har outfit, which will be located in the northwest corner of the hall, formerly used as a gymnastium. The gymnastic apparatus will all be removed, and the hall fitted out with tables, palms and decorations. These improvements will all be completed by Saturday evening.

A programme consisting of vocal and instrumental selections and several athletic exhibitions will be carried out. It is the purpose of the management of the club to give a series of social entertainments in the long interim that will intervene before the next great political contest in the city, to the end that the members may all become thoroughly acquainted.
